SUPPLEMENTAL INFORMATION
DISCLOSURE STATEMENT

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Information Disclosure Statement supplements the Information Disclosure Statement already on file for this case by providing additional art that may be material to the prosecution of this application that has come to the attention of the applicants by receipt of the European Supplemental Search Report. A copy of the European Supplemental Search Report that shows on its face having been mailed by the European Patent Office on 6 June 2005 is enclosed. That report is therefore being supplied within three months of its receipt.

Serial No. 09/701,132
Information Disclosure Statement

Pursuant to 37 C.F.R. §1.97, a list with that Supplemental Search document and the lone piece of art not already in this record that may be material to the examination of this application from the Search Report is provided on the attached Form PTO-1449. Copies of the Supplemental Search and the lone piece of art are enclosed herewith, respectively.

No inferences should be drawn that the attached list represents a comprehensive investigation, or that any material disclosed is equivalent to the subject invention. In addition, none of the documents that have publication dates prior to the priority date of the above application anticipate the invention in this application.

The cited documents disclose numerous specific features. There has been no attempt to list each and every feature disclosed by each document. The Examiner is requested to review the documents and determine the extent of the materiality of the document disclosures with respect to the present invention.

The discussion of any art and the citation of any document herein is not to be construed as an admission that the art or document disclosure is necessarily within the invention field of endeavor, that the art or document disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by the patent law with respect to the instant invention and application.

Serial No. 09/701,132
Information Disclosure Statement

Also, there is reserved the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and documents recited herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

The recitation herein of the art and documents is not to be construed as an assertion that more pertinent art could not possibly be in existence.

No further fee or petition is believed to be necessary. However, should any further fee be needed, please charge our Deposit Account No. 23-0920, and deem this paper to be the required petition.

The Examiner is requested to phone the undersigned should any questions arise that can be dealt with over the phone to expedite this prosecution.

Respectfully submitted,

By 
Edward P. Gamson, Reg. No. 29,381
